TO: THE PLAN OF ADJUSTMENT for the following reasons.

1. I / we am/are interested in the Bankruptcy of the City of Detroit because

I am a longtime resident who is close to retirement age. I am also a UAW member.

2. I / we object to the above filing because:

Aside from the dire consequences Kevyn Orr's Plan of Adjustment would have on the lives of the pensioners, no one is considering the psychological affect the plan will have on the people of Detroit. Cities are not balance sheets. A city's greatest asset its people. Mr. Orr seems to be totally out of touch with how the average Detroiters is forced to live. Our retirees, who are and always have been our most dependable citizens, very often

3. I have/ have not attached additional sheets to explain and establish my position.

are living with multiple generations in their household. Not only are they supplementing the income of their grown children who are usually unemployed or underemployed, but they are often raising grandchildren, and some are even caring for aged parents. It is not at all uncommon for Detroiters to have four generations under one roof. Any cuts to retiree's income would have a domino affect on the whole family. The psychological affect on the younger generation would be devastating as well. How can a person be motivated to get a honest job when he or she has watched parents and grandparents get up everyday, go to work, pay the bills, be responsible citizens only to end up homeless on the street with nothing? How could one have hope for a better life? Only a slave works for nothing. Why should the pensioners be punished when their only wrongdoing was believing in the state of Michigan's promise to safeguard the pensions that they earned.
